DHARSAN S

Full-Stack Development Trainee

ABOUT ME

I am a full-stack web developer with a passion for creating dynamic and user-friendly web applications. Skilled in both front-end and back-end development, I enjoy solving problems and building solutions that make a difference.

PROJECT

E-commerce Website Development

- Developed a fully functional e-commerce website using MEAN Stack (MongoDB, Express.js, Angular, Node.js) with a user-friendly admin panel for product and order management.
- Implemented features like user authentication, product listing, add-to-cart, checkout, ensuring a seamless and responsive user experience.

Duration: 2 Month

Real-Time Chat Application (MERN Stack)

- Developed a Real-Time Chat Application using MERN Stack (MongoDB, Express.js, React, Node.js), enabling users to send and receive instant messages in real-time.
- Built a dynamic React frontend, implemented real-time communication using Socket.io with Express.js/Node.js, and stored user messages securely with MongoDB.

Duration: 3 Weeks

Student Management System (Django)

- Developed a Student Management System using Python and Django, allowing administrators to manage student records, courses, and attendance efficiently.
- Built user authentication, course enrollment, and attendance tracking features, designed responsive views with Django Templates, and managed data storage with SQLite

Duration: 1 Month

TRAINING EXPERIENCE

- Completed 8 months of intensive training at **Aspire Systems** as a MERN & MEAN Stack Intern, gaining hands-on experience in web development, including front-end and back-end development, project design, and database management.
